

# Functional Specification

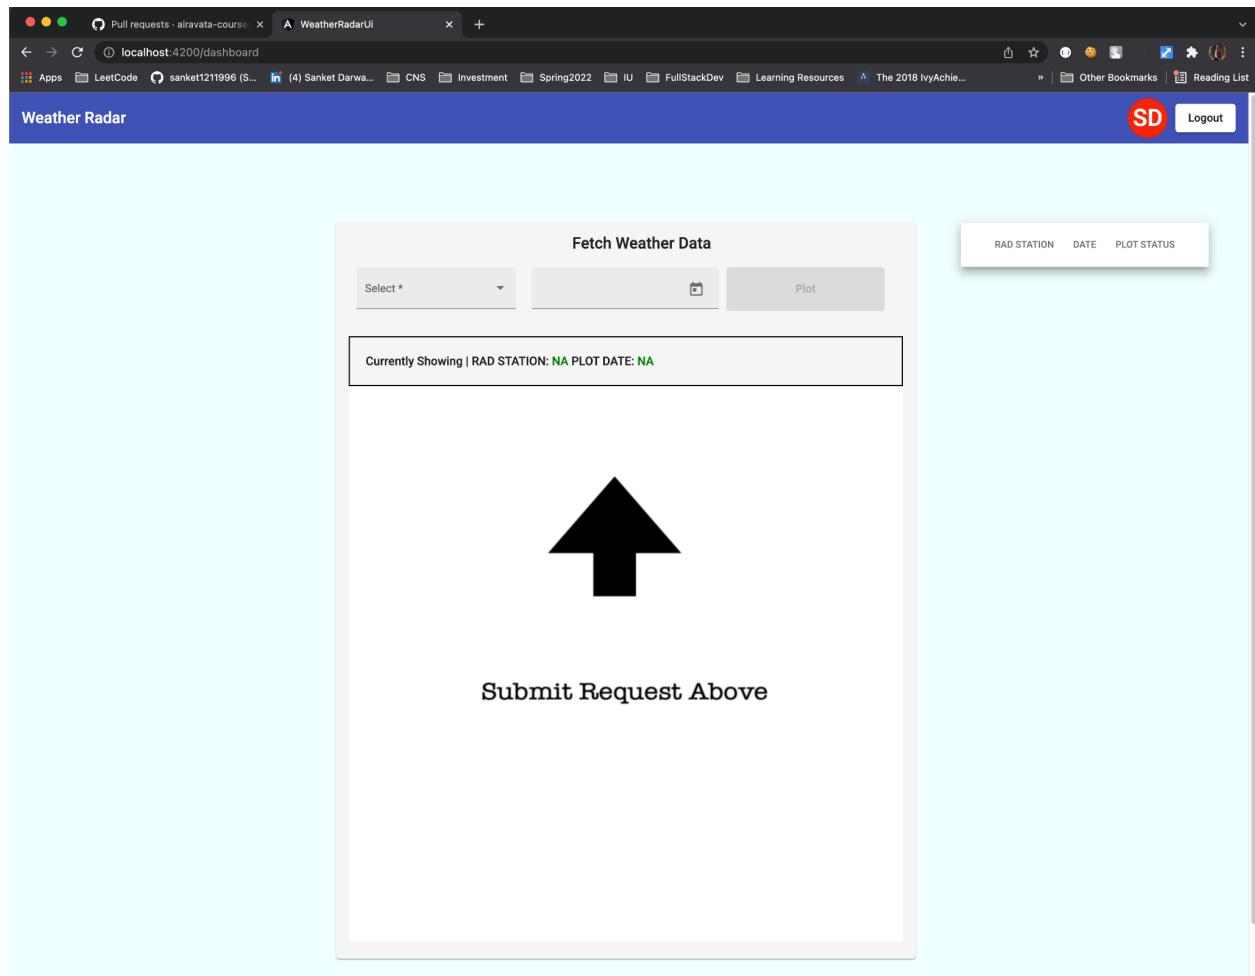

Step 1: Open browser and enter url - <http://localhost:4200/>

You will see the screen below:

Step 2: Click on **Sign in with Google** button, and sign in with any google account.

After login, you will see the screen below.

Step 3: Select RAD STATION Eg. Indianapolis, IN from select dropdown, and date from the calendar date picker button eg.02-04-2022 Format:MM-DD-YYYY. Then click on the Plot button.

After clicking on the plot button, your query will be displayed in the table on the right side on the screen. This table shows the query details and its status.

Plot Status can be seen in three statuses for each query you submitted as PROCESSING(Timer Icon), and PROCESS DONE(Green tick) or PROCESS FAIL(Error Icon).

Step 4: Click on the row of the query in the table which shows the process done in plot status, after clicking you can see the plot on the main content area as shown below.

Note:- Query Status in the table is auto refreshed in the table on right every 5 sec.
